SKILLS

- JavaScript
- TypeScript
- HTML
- CSS
- React
- React Native
- MySQL
- Leadership
- Planning
- Scripting
- Accessibility
- Agile/Scrum

EDUCATION

Bachelor of Science (OM&IS)

Northern Illinois University

May 2010

College of Business

HOBBIES

Thru-hiking and Photography

PROFILE

I'm a self-taught web developer/software engineer and making things with code thrills me to no end. With a strong background in JavaScript/TypeScript, and HTML/CSS, I have hands-on experience working with high-traffic, customer-facing products built with an attention to detail.

WORK EXPERIENCE

Senior Software Engineer II

Optum Digital   Since 2020

- Led development and maintenance of scalable, high-performance React and React Native applications used by millions of people
- Collaborated with backend and product teams to deliver seamless integrations and support project planning
- Conducted code reviews, enforced best practices, and mentored junior and mid-level developers
- Partnered with UX/UI to translate designs into responsive, user-friendly interfaces
- Maintained strong test coverage using Jest and E2E tools to ensure reliability and reduce defects
- Established and enforced coding standards to ensure a consistent, maintainable codebase

Senior Frontend Engineer

Rally Health   2018 - 2020

- Built and launched a robust RX and pharmacy web application platform
- Partnered with UX/UI to deliver responsive, user-friendly interfaces
- Collaborated with backend and product teams to ensure seamless integration and support project execution

Senior Fullstack Web Developer

Earlybird Software   2015 - 2018

- Managed AWS services for client websites, including EC2, RDS, S3, and SMS
- Built web applications from the ground up using Vue.js and AngularJS, following modern web standards
- Designed and maintained APIs on Linux servers using PHP Laravel
- Automated CI/CD deployments with custom Ansible scripts to ensure consistent releases

Web Developer

Red Frog Events   2013 - 2015

- Supported multiple concurrent event website projects
- Maintained and evolved the EventSprout ticketing and registration platform (CodeIgniter → Laravel)
- Managed and maintained the RegistratioNATION platform using CodeIgniter

Junior Web Developer

Silverline Creative   2012 - 2013

- Maintained the RegistratioNATION website (CodeIgniter) for Red Frog Events
- Supported and maintained multiple custom-built event websites
